

Join us for 'The Nature of the Bay' Lecture Series

We are pleased to announce our new lecture series that focuses on the amazing natural resources we have in the San Francisco Bay area. Each talk features a different scientist or natural resource manager from the Bay Area community. We will kick things off on October 2nd, which marks the closing of Richardson Bay to all boating activities for the winter waterbird season. The series will continue on the third Thursday of each month from October through March 2009. All are welcome, and light refreshments will be served. Although Richardson Bay will be closed for boating during the winter, the center will continue to be open for sharing our love of nature!

Please join us for
'The Nature of the Bay' Lecture Series
Brought to you by Richardson Bay Audubon Center
